the Biology Department!

Exploring in Your Courses

Ecology and Adaptation (BIOL 131)
Organismal Biology (BIOL 232)
Population & Community Ecology (BIOL 333)
Conservation Biology (BIOL 390)
Environmental Toxicology (BIOL 392)
Microbial Ecology (BIOL 407)
Evolution (BIOL 425)
Extreme Methods in Ecology (BIOL 460)

Forest and Wetland Ecology (BIOL 476)
Urban Biology (BIOL 481)
Field Biology & Phenology (BIOL 489)
Directed Study and Research (BIOL 491)
Internship in Biology (BIOL 495)
Radford Amazonian Research
Expedition (RARE 400, 410, 420)

Balancing Your Interests

Our ecologists take courses in, conduct research on, and study a variety of topics as biology majors or minors: ecophysiology, bioassessment, behavioral ecology, aquatic ecology, urban ecology, taxonomy, food web dynamics, biodiversity, population modelling, distribution, disease ecology, invasion ecology, and much more!

Our department also provides opportunities for independent and course-based research experiences, internships, work-study positions, career training, speaker series, and much more!

Interacting in Clubs & Service

The Wildlife Society
Beta Beta Beta Honors Society
