

# Find Your Home Range in **Wildlife** Biology

**RADFORD**  
UNIVERSITY

Discover more about  
the Biology Department!

## Exploring in Your Courses

General Zoology (BIOL 216)  
Flora of Virginia (BIOL 217)  
Organismal Biology (BIOL 232)  
Population & Community Ecology (BIOL 333)  
Ornithology (BIOL 380)  
Conservation Biology (BIOL 390)  
Environmental Toxicology (BIOL 392)

### Foraging on Interests

Our wildlife biologists take courses in, conduct research on, and study a variety of topics as biology majors or minors: wildlife management, veterinary medicine, biodiversity, food webs, species interactions, taxonomy, population modelling, policy and regulation, disease ecology, parasitism, invasive species, distribution, migration patterns and much more!

Our department also provides opportunities for independent and course-based research experiences, internships, work-study positions, career training, speaker series, and much more!

Evolution (BIOL 425)  
Wildlife Management in Virginia (BIOL 460)  
Invertebrate Zoology (BIOL 462)  
Vertebrate Zoology (BIOL 464)  
Forest and Wetland Ecology (BIOL 476)  
Field Biology & Phenology (BIOL 489)  
Fire Ecology (BIOL 481)  
Directed Study and Research (BIOL 491)  
Internship in Biology (BIOL 495)  
Radford Amazonian Research Expedition (RARE 400, 410, 420)
